Attachment A

CSHP, HIV/AIDS Prevention Education Program Questionnaire

Please use the questions listed below to compile your responses and gather necessary information before you log on to complete the survey.

- ☐ Has your local board of education adopted a formal written policy concerning HIV/AIDS prevention education?
- ☐ Are there any current plans to develop a new policy or revise an old policy in this area?
- ☐ In which grade is HIV/AIDS education required or recommended for students in one or more schools in your district?
- ☐ What percentage of all students in elementary school, middle school, or high school would you estimate receive HIV/AIDS education each year?
- ☐ How would you describe your district's HIV/AIDS curricula at the elementary, middle, and high school level?
- ☐ What is the name/names of the HIV/AIDS curricula currently being used in your district?
- ☐ What are the topics and skills included in the HIV/AIDS curricula currently being used?
- ☐ Estimate the percentage of all staff who has ever attended a training session regarding local school board HIV/AIDS guidelines, policies, and procedures.
- ☐ In the past 12 months, has there been resistance to allowing a student with HIV/AIDS to attend school, refusal to work with a student with HIV/AIDS, or disclosure of a student's HIV positive status without parental consent?
- ☐ Of the teachers and other staff (e.g. nurses and counselors) who are expected to teach HIV/AIDS education to students in your districts, approximately what percent have received any training specifically concerning how to provide HIV/AIDS education to students?
- ☐ Has your district provided any training to help staff provide HIV/AIDS education or counseling to students?
- ☐ Why have some teachers that are responsible for teaching HIV/AIDS education in your district not received HIV/AIDS curriculum training?
- ☐ How important is it for the Florida Department of Education to provide technical assistance, training, and/or resources to your district in the area of HIV/AIDS prevention education?
