MEMORANDUM

DATE: July 28, 2004

TO: District School Superintendents

FROM: Raymond Monteleone

SUBJECT: 2004-05 Florida Education Finance Program Second Calculation

Attached is the second calculation of the 2004-05 Florida Education Finance Program (FEFP). This calculation has been prepared following the receipt of the Department of Revenue certified tax roll on July 13, 2004. Required Local Effort millage rates were recalculated and certified by the Commissioner in a memo to all districts dated July 15, 2004. The information attached to the Commissioner's memo is derived from this calculation.

The 2004 Legislature passed Senate Bill 3000, which requires each lab school's proportionate share of operating funds from the FEFP to be based on the county in which the lab school is located. This bill became law with the Governor's approval and necessitated the addition of a new line item for the Florida State University's Broward County Lab School. The new item was included in the second calculation of the FEFP causing allocation changes to several components of the FEFP and categorical programs. An adjustment for a failed contingency of \$150,000 for the School District of Miami-Dade County was also included.

RAYMOND MONTELEONE

Deputy Commissioner/Chief Operating and Education Financial Officer

This calculation differs from the Conference Report (First Calculation) due to revisions to the tax roll and levels of assessment and the addition of the new line item for FSU Lab – Broward. The FEFP components that did not change were the Supplemental Academic Instruction allocation and the Summer School Reading allocation. In addition, the allocations for the categorical programs Instructional Materials and Class Size Reduction changed. All component calculations are provided for your convenience. A summary of the new categorical allocations is also attached.

In comparing the second calculation with the first calculation, please note the following:

1. The 2004 tax roll increased by \$38,533,123,621 from the estimate.
2. This increase in the tax roll caused the statewide average millage rate to decrease from 5.679 to 5.472.
3. Total Required Local Effort increased by \$331,266.
4. Potential basic discretionary revenue (potential 0.510 mills) increased by \$18,669,301 due to the tax roll increase.
5. Potential supplemental discretionary revenue (maximum potential 0.250 mills) increased by \$57,916 as a result of tax roll increases in several districts. The supplemental discretionary millage rates have been recalculated using the certified tax roll (page 8).
6. The Discretionary Tax Equalization state funds (page 8) decreased by \$162,350 as a corresponding offset to the potential supplemental discretionary revenue increase indicated in item 5. Please remember that in order to be eligible for the Discretionary Tax Equalization state funds, the 0.510 mills (item 4), as well as the 0.250 mills (item 5), must be levied. Please refer to page 28 for each district's 2004-05 total potential nonvoted millage.
7. The Net State FEFP funds decreased by \$442,244 as a result of an increase in the Required Local Effort and a decrease in Discretionary Tax Equalization. This was partially offset by an increase in the Discretionary Contribution.

Electronic funds transfers from the Net State FEFP allocation began on July 26, 2004.

* If unweighted FTE is greater than 20,000, district is not eligible for sparsity supplement.

** If sparsity index is greater than 7,308, sparsity factor is set to zero and district is not eligible for supplement.

*** Funded weighted FTE x Base Student Allocation x Sparsity Factor.
