FLORIDA DEPARTMENT OF EDUCATION

CHARLIE CRIST
Commissioner

SHAN GOFF, CHIEF
BUREAU OF INSTRUCTIONAL SUPPORT
AND COMMUNITY SERVICES

MEMORANDUM 02-85

TO: District Health Education Coordinators

FROM: Shan Goff

DATE: August 23, 2002

SUBJECT: **District Health Education, Staff Training, and Education Assessment Survey**

In a continued emphasis on school district needs, health education, and staff training, Florida's Coordinated School Health Program (CSHP) is collecting data regarding the status of school districts, health education, and staff training in the state. The CSHP is supported by a cooperative agreement with the Centers for Disease Control and Prevention (CDC) to improve health education based on school district and school needs. Attached is a School District, Staff Training, and Health Education Assessment Survey to help collect district data in these areas. This survey has been provided to all CDC funded state and local projects as an example of a high quality assessment document.

Once the evaluation has been completed, the results will be compiled and distributed to school health education coordinators. The evaluation will highlight areas of need for school districts, health education, and staff training and provide information that will help CSHP planners make decisions regarding future training events and workshops. As the Health Education Coordinator in your school district, please complete the survey and return to the CSHP by September 20, 2002. Please direct any questions regarding the survey to Matthew McKibbin, CSHP, at (850) 488-7835 or Suncom 278-7835 or via email matthew.mckibbin@fldoe.org.

Thank you for your assistance and your dedication to children's health.
