Technical Assistance Paper

Talented 20 Program: Technical Specifications for the Submission of Talented 20 Data

Summary:

Attached is the information regarding the submission of data to identify the students of the class of 2011 who rank in the top 20 percent of their graduating class and who may be eligible for the Talented 20 Program.

Data may be transmitted beginning Thursday, February 3, 2011, through Thursday, March 10, 2011.

We encourage districts to develop a strategy to notify seniors of their Talented 20 eligibility status. A sample letter for seniors that may be disseminated via school or district level is included. The final eligibility report for the class of 2011 will be available Monday, March 21, 2011.

Technical Specifications for the Submission of Talented 20 Data

General guidelines for determining the top 20 percent of the graduating class are as follows:

- Identify the top 20 percent of students in the senior class including those students who have selected a three-year, 18-credit graduation program. Include only students from schools that offer a standard curriculum such as regular district high schools, combination schools, magnet schools, charter schools, alternative schools, and other schools identified by the district that offer a standard curriculum and the 18 units of core courses required for state university system admission (SUS). SUS admission requirements, including course distribution requirements for SUS admission, are specified in the [2010-2011 Florida Counseling for Future Education Handbook](#).
- Rank the students in your senior class who are receiving a standard diploma. Use the cumulative grade point average (GPA) calculation methodology that you use to determine the valedictorian. Placement in the top 20 percent of the senior class must be based upon the ranking by cumulative GPA after the posting of seventh semester grades. You must include all students in the ranking who are scheduled to graduate in 2011, including those students who have selected a three-year graduation program.
- High schools that include both a traditional and a magnet program must report separate lists. These are the top 20 percent of the senior class in the magnet program and the top 20 percent of the senior class in the traditional programs. The sum of both lists cannot exceed 20 percent of the total senior class. Schools are responsible for determining if any program at their school qualifies as a magnet program.

Specific guidelines for submitting student transcripts to the Talented 20 Program via the FASTER (Florida Automated System for Transferring Educational Records) electronic transcript system are as follows:

- Transcripts for all members of the 2011 graduating class must be addressed in the same way as transcripts being submitted to the Bright Futures System: Addressed School 951170 (if the student is currently in Bright Futures 'practice') or Addressed School 951171 (if the student is currently in Bright Futures 'production').
- The **Message Type** (field #5 on the FASTER Header Record, at character positions 36-38) should be set to the value '**Q20**' instead of the Message Type value you would normally have used in a Bright Futures transmission. This is required for the submission of Top 20 transcripts.
- The Talented 20 and Bright Futures Systems have separate locking mechanisms to keep the systems from interfering with each other. Thus, a transcript sent to Talented 20 will go through, even if the student's Early Evaluation transcript in Bright Futures is locked.
- All courses must be on the transcript – including courses in progress (both courses now in progress and those students will be taking during the second half of their senior years), courses for students on block schedule, Florida Virtual High School online courses and dual enrollment courses.

- **Social Security Number (preferred)** or Florida Student ID number should be verified for accuracy. It is preferable that you send **Social Security Numbers** to facilitate matching transcripts with SAT and ACT scores.
- The **weighted GPA** should be put in **Grade Point Average District, Cumulative**, field #43 on the FASTER Demographic (T1) Record, at character positions 897-901.
- The **unweighted GPA** should be put in **Grade Point Average State, Cumulative**, field #44 on the FASTER Demographic (T1) Record, at character positions 902-906.
- Both **Grade Point Average District, Cumulative** and **Grade Point Average State, Cumulative** are required fields for submission of Top 20 transcripts.
- Only students who will receive a **standard diploma** should be submitted to the Talented 20 program.
- This data will be processed nightly beginning **Thursday, February 3, 2011**. Districts may submit as many transcript evaluations as needed up to the March 10, 2011, deadline.
- An eligibility report will be produced for Talented 20 transcript evaluation data that are submitted. This report will be available via the 'Educators Login' link on the Talented 20 Web page (www.fldoe.org/Talented20/). The final eligibility report for the purpose of identifying class of 2010 students for the Talented 20 Program will be available **Monday, March 21, 2011**.
 - School administrators and guidance counselors will click on this link, bringing up the login page (see Example 1) where they will enter the Logon ID and Password provided in 2006 to the Talented 20 program contact in each district.
 - If you have questions regarding the Logon ID, please contact Tameka Thomas, Bureau of Family and Community Outreach, via e-mail at Tameka.Thomas@fldoe.org or by phone at (850) 245-0845.
 - Clicking 'Submit Logon Request' will bring up the Talented 20 Main Menu (see Example 2). The system will already have entered the user's school district. For school-level users, the system will also have entered the user's school (district-level users will be able to select a school from the drop-down list). All users can then select graduation year from the third drop-down list. If the current graduation year (the graduating class of 2011) is selected, the user will have the following three choices (if a later year is chosen, only the third option will be operational):
 - - ▶ Evaluation Summary for Top 20 Students. A sample of this report can be found in Example 3. It contains summary totals for the school and lists every student designated as a Top 20 student with their name, ID, eligibility status, and (for students not yet eligible) the number of credits the student is missing in each of the six subject area categories. The report will be sorted alphabetically. By clicking on the student's eligibility status, the user can then bring up an individual Student Evaluation Report (see Example 4) which lists the courses submitted with the student's transcript and identifies which were used and how much their credits counted towards satisfying one of the Talented 20 subject area requirements.

- ▶ District Progress Report. This report is in the same format as the school summary totals in the Evaluation Summary but contains the totals for the entire school district (this option is only available to district-level users).
 - ▶ Evaluation Summary for All Students. This is the same report as the Top 20 Evaluation Summary, except that it covers every student in the school, and will contain a column for the student's GPA (an unweighted calculation based on the credits used in satisfying the 24-credit state Graduation requirement) instead of a column for eligibility status. The report will be sorted in descending order by GPA. It is anticipated that this report will be most useful in advising students nearing the end of their sophomore or junior years. Like the Top 20 summary, users can click on a column for the student (in this case, the GPA column) to bring up an individual Student Evaluation Report.
- Remember to carefully review student eligibility status. For those students deemed ineligible, verify their data to determine if corrections are necessary, resubmitting the transcript(s) to make these corrections.
 - The final submission of this data will be on **Thursday, March 10, 2011**. At that point, the data will be locked and no further processing will occur.
 - The system will archive the information on which the Talented 20 evaluations were based to maintain a record of the students' final Talented 20 evaluations.

It is imperative that you review student identification numbers for accuracy. All data, including corrections to the Talented 20 Program Eligibility Reports, must be received no later than **Thursday, March 10, 2011**.

If you have any technical questions concerning transmissions to the Florida Department of Education (FDOE) High School Transcript Database, please contact the FASTER office at fstr@fldoe.org. If you have questions regarding the Talented 20 program, please contact Kimberly Davis, by phone at (850) 245-0551 or via e-mail at Kimberly.Davis@fldoe.org.

Date

Dear Student:

Let me commend you on your significant academic accomplishments. You have been identified as ranking in the top 20 percent of your graduating class and may qualify for the Talented 20 Program. Eligible students are guaranteed admission to one of the eleven state universities within space and fiscal limitations.

To maintain your eligibility, you must meet the following criteria:

- Graduate with a standard diploma in 2011
- Take the ACT or SAT prior to enrollment in university (no minimum score is required)
- Complete all 18-core course requirements for state university admission.

Talented 20 students are in a position of priority for the awarding of funds from the Florida Student Assistance Grant, a needs-based grant. Please visit <http://www.FloridaStudentFinancialAid.org> for eligibility requirements and additional information on state financial aid and scholarship opportunities, including the Bright Futures Scholarship program.

Please note that while eligible students are guaranteed admission to one of the state universities, within space and fiscal limitations, they may not necessarily be admitted to the campus of choice. You may wish to search <http://www.FACTS.org> for information concerning individual universities. Additional information and Frequently Asked Questions regarding the Talented 20 Program are available online at <http://www.fldoe.org/Talented20>.

Sincerely,
