MEMORANDUM

TO: District School Superintendents

FROM: Pam Stewart

SUBJECT: High School Feedback Report for 2011 Graduates

Each year, Florida attempts to measure how well high school graduates are prepared for postsecondary education. In support of the State Board of Education's dedication to highest student achievement and a K-20 education performance accountability system, the **High School Feedback Report for 2011 Graduates**, pursuant to Section 1008.37(2), Florida Statutes, is currently available online for public school districts to access and review. The Florida Department of Education's K-20 Education Data Warehouse (EDW) is the reporting source for the 2011 public high school data and feedback data for postsecondary enrollment.

To assist school districts in preparing Florida's high school graduates for successful transition to postsecondary education and the workplace, the *High School Feedback Report* data provide a comprehensive snapshot of the 2011 high school graduates' academic experience. These reports provide enrollment, participation, and performance data to help districts and schools answer the question: "How effectively are we preparing students for success in a postsecondary education program?" Every public high school that had graduates in 2011 has an online report. Within the report format are pre-graduation and post-graduation indicators of college readiness, allowing for comparison of school, district, and state data. There are several possible approaches for using the feedback data, all of which can be used to better analyze and plan for improving student learning and achievement.

The *High School Feedback Report* allows for viewing, printing, and exporting to Excel the following reports:

1. one high school within a district, relative to district and state data;
2. all high schools within a district, relative to district and state data; and
3. all districts for each indicator in the report, relative to state data.

In addition, the “Trends” option allows for viewing and printing data for the last three years (2009-2011) side-by-side for each school separately within each district.

To access web-based reports please go to <http://data.fldoe.org/readiness/>. Enter **hsfr** as the username and **temp2112** as the password.

If you have questions or feedback, we would like to hear from you prior to the public release of the reports in January 2013. Please contact Mr. Matthew Bouck directly at matthew.bouck@fldoe.org or by telephone at (850) 245-9544.
