MEMORANDUM

TO: District School Superintendents
District MIS Directors

FROM: Pam Stewart

SUBJECT: Performance on Common Placement Tests Report for 2011 High School Graduates

The Performance on Common Placement Tests report for 2011 high school graduates is available online at <http://www.fldoe.org/articulation/perfCPT/>. This report is available to school districts prior to the public release in January 2013. The username and password for the online report is “**perfcpt.**”

Student-level performance data can be accessed via the mainframe as a sequential file or in a formatted report. This mainframe access allows districts to query and print specific information needed for local reporting purposes. The data for this report are maintained by the Department of Education's K-20 Education Data Warehouse, which collects data across years and surveys.

The following information is to assist district MIS directors in accessing student-level performance data via the mainframe. The database name for the sequential file is DPS##.EDW.PERFCPT.DATA.Y1011 (## = district number), and the format is provided below. The dataset name for the formatted report is DPS##.EDW.PERFCPT.REPT.Y1011. Please note that a duplicate student record can occur when the Education Data Warehouse receives variations in student identifiers over time, such as social security numbers or last name, first name (e.g., “Bill” vs. “Billy”), etc. We ask that districts determine which data are valid for any duplicate listings.
