SUBJECT: 2013 Talent Pool Recommendations

The State of Florida maintains a file of emerging classroom leaders that consists of a cadre of distinguished teachers and principals. These educators may be considered for membership on advisory boards and task forces, as well as candidates for special recognition programs. Your recommendations will identify educators who will be of great value to our community and state efforts. We would like to add to our list of educators who demonstrate exceptional instructional and leadership ability. Such persons exhibit strong potential for professional leadership and an inspiring presence that impacts students, colleagues, and the community.

I am sure you have had the opportunity to work with an educator who is illustrative of our state's, and also nation's best in teaching, and distinguishing himself/herself above and beyond established top-quality professionals in many of our schools. At this time, we are seeking secondary level classroom teachers with five to 18 years of experience who are recognized by peers and supervisors as unique in their professional growth. Principals and specialists, who are within the first 10 years as an administrator, with no more than 20 total years in education, are also sometimes needed. Previous recognition is not required. In fact, of special interest are educators who are outstanding, but have not received other recognition.
