## MEMORANDUM

**TO:** School District Superintendents  
School District Professional Development Directors  
Deans/Directors of Teacher Preparation Programs

**FROM:** Pam Stewart

**DATE:** August 23, 2013

**SUBJECT:** Clinical Educator Trainer Preparation Sessions

The purpose of this memorandum is to announce the application process for the **Clinical Educator Trainer Sessions** being sponsored by the Florida Department of Education. This program is intended to prepare Clinical Educator Trainers to conduct the training program in locally delivered workshops.

### Program Description: Clinical Educator Trainer Preparation

This program prepares trainers to deliver modules that develop clinical skills for assisting teachers in both the classroom setting and the student service setting. Areas addressed by this program include diagnosing performance of educators and students, providing feedback on professional performance, and preparation and implementation of professional development plans.

A prerequisite for attending this trainer preparation session is previous completion of the Clinical Education Training (Participant Level) for supervising teachers. This first level of training is provided at the school district level. It is required for all district personnel and teachers (including school psychologists, guidance counselors and school social workers) who supervise or direct students during field experience courses or final internships. In addition, this training is required for all individuals in postsecondary teacher preparation programs who instruct or supervise preservice field experience courses or internships.

Several workshops are planned for the current school year in different regions of the state. These workshops will use an electronic delivery method for training materials, so applicants should plan to bring a laptop computer to the sessions.
