DPS: 2014-117

Pursuant to section 1002.321 (6), Florida Statutes, the department has developed the Florida Online Course Catalog of available digital learning courses offered by district virtual schools, DOE-approved providers and Florida Virtual School. This catalog provides an opportunity for each entity to showcase the online courses they offer. For each course, the catalog provides access to the official course description, a description of unique features of the course and a method for students and teachers to provide evaluative feedback.

The administrative side of the catalog was launched in May to allow districts, providers and Florida Virtual School to enter their courses prior to the public launch this month. We are happy to announce that the public launch of the Florida Online Course Catalog will occur today; July 25. To view the Florida Online Course Catalog please visit the following website:
<http://app4.fldoe.org/coursecatalog>.

If you have any questions, please contact onlinecatalog@fldoe.org.

As Florida continues to lead the nation in school choice, we are excited for students to access the informational catalog and choose courses that will benefit their educational experience. Thank you for providing these opportunities for our students.
