**Technical Assistance Paper**  
**Technical Specifications for the Submission of Data for the**  
**Talented Twenty Program**

**Summary:** The Talented Twenty program supports efforts to better prepare students for life and work in the twenty-first century. The purpose of the Talented Twenty Program is to guarantee admission to one of the 12 state universities for students who succeed in their respective K-12 public schools and to encourage students to strive for better grades and pursue rigorous academic courses. This document includes information regarding the guidelines to determine students in the top 20 percent of their graduating class and the specifications they must meet to be eligible for the Talented Twenty program. A district has the responsibility of identifying the top 20 percent from each eligible high school's graduating class and must submit data for those meeting the required specifications. The submission period for schools and districts to transmit data begins on February 4, 2022, and ends on March 25, 2022.

The final eligibility report for the graduating class will be available on the first Monday in April. Schools and/or districts should notify seniors of their Talented Twenty program eligibility status (see sample letter in Attachment A).

**Technical Assistance Paper**  
**Technical Specifications for the Submission of Data for the**  
**Talented Twenty Program**

**1. General guidelines for determining the top 20 percent of the graduating class are as follows:**

- The top 20 percent of students in the senior class, including those students who have selected a three-year, 18-credit graduation program, should be identified as eligible for the Talented Twenty program. Only students from schools that offer a standard curriculum such as traditional district high schools, combination schools, magnet schools, charter schools, alternative schools and other schools identified by the district that offer the 18 units of core courses required for State University System (SUS) admission will be included.
- Students must meet SUS requirements in order to be eligible for the Talented Twenty program. SUS admission requirements, including course distribution requirements for SUS admission, can be viewed at the following link:  
<https://www.fldoe.org/core/fileparse.php/5421/urlt/FCFFEH.pdf>.
- A school district must include all students in the ranking who are scheduled to graduate in the current graduating class. Early graduates must be included in the graduating class for the year in which the student is completing high school, and these early graduates should be included in class ranks.
- Students in the current graduating class should be ranked using the cumulative grade point average (GPA) calculation methodology used to determine the valedictorian. Placement in the top 20 percent of each school's students who are scheduled to graduate in the current school year is based upon the ranking by cumulative GPA after the seventh semester of their final high school year. Therefore, if a student is not eligible after the seventh semester grades are posted, then he or she cannot qualify or be considered.

**2. General guidelines for submitting student transcripts are as follows:**

- A school district has the responsibility of identifying the top 20 percent from each eligible high school's graduating class and must only submit student transcripts for those students identified as eligible. School districts that submit in excess of the top 20 percent or under submit will be flagged and required to correct their submission.
- Student transcripts must be submitted via the Florida Automated System for Transferring Educational Records (FASTER) electronic transcript system.
- Only transcripts for the top 20 percent of each graduating class should be uploaded into the system. Transcripts for all students graduating should NOT be uploaded into the system.
- Transcripts for all members of the current graduating class must be addressed in the same way as transcripts submitted to the Bright Futures system. For example, in **2022** the **Addressed School Code** is **952271**. This code changes annually to reflect the year of each current graduating class.

**Technical Assistance Paper**  
**Technical Specifications for the Submission of Data for the**  
**Talented Twenty Program**

- The Addressed School Codes for early graduates should reflect the school year of graduation. For example, in **2021-2022** the Addressed School Code for an early graduate should reflect code **952271**.
- The **Message Type** (field #5 on the FASTER Header Record, at character positions 36-38) should be set to the value “**Q20**.”
- Resubmission of transcripts will replace what was previously sent whether the data was in error or whether the data needs updating. Resubmission of data must be completed by the submission deadline, which is on Friday, March 25, 2022, by 5:00 p.m. Eastern Time.

Student transcripts submitted in error to the Talented Twenty program can be deleted permanently from the list by contacting Felicia Trumpler at 850-245-7851 or [Talented20@fldoe.org](mailto:Talented20@fldoe.org)

- This data will be processed nightly beginning on February 4, 2022. Districts may submit as many transcript evaluations as needed up to the deadline, which is on Friday, March 25, 2022, at 5:00 p.m. Eastern Time.
- The Talented Twenty and Bright Futures systems have separate locking mechanisms to keep the systems from interfering with each other.
- All courses must be on the transcript, including courses in progress, courses students will take during the second half of their last high school year, courses for students on block schedule, courses completed outside the school district’s virtual course offerings, and dual enrollment courses.
- Virtual courses in which students are currently enrolled must be submitted as “In Progress.”
- Virtual schools can submit to the Talented Twenty program if the virtual school issues the diploma. Virtual schools cannot submit to the program if a regular high school issues the diploma.
- Florida Student ID numbers should be verified for accuracy.
- The weighted GPA should be put in the Grade Point Average District, Cumulative, field #43 on the FASTER Demographic (T1) Record, at character positions 897-901.
- The unweighted GPA should be put in the Grade Point Average State, Cumulative, field #44 on the FASTER Demographic (T1) Record, at character positions 902-906.
- The FASTER Aging Report and the FASTER X01 Error Report may be generated by school administrators and school counselors for the purpose of confirming, identifying and/or correcting submitted Talented Twenty information for the current Talented Twenty year. Contact your district Management Information Systems (MIS) office for additional information, if needed.
- District administrators should ensure that reporting has occurred from all eligible schools in the district with graduating seniors.

**Technical Assistance Paper**  
**Technical Specifications for the Submission of Data for the**  
**Talented Twenty Program**

- School administrators and counselors should carefully review individual student eligibility status. For those students who are mistakenly ineligible, corrections to data can be made and must be resubmitted by Friday, March 25, 2022, by 5:00 p.m. Eastern Time. After this deadline, the system will be locked and no further processing will occur.
  - The final report of students identified as eligible for the Talented Twenty program will be available on the first Monday in April.
  - After the final posting of the eligibility report, districts and schools have the responsibility of notifying students of their Talented Twenty award.
  - The Florida Department of Education will notify the school districts via email when the Talented Twenty program is closed and the address file for the eligible students is available.
  - The system will archive the information on which the Talented Twenty evaluations were based to maintain a record of students' final Talented Twenty program evaluations.
- 3. General guidelines for reviewing students' final Talented Twenty program evaluations and the information used to determine their eligibility for the Talented Twenty program are as follows:**
- After logging in (see Attachment B), users will see the Talented Twenty main menu (see Attachment C).
  - The user's school district will already be entered by the system.
    - For school-level users, the user's school will also be entered by the system (district-level users will be able to select a school from the drop-down list).
  - All users can then select the graduation year from the third drop-down list. If the current graduation year is selected, the user will have three options (if a later year is chosen then only the third option will be operational).
    - **Option 1:** Evaluation Summary for Top 20 Percent of Students – A sample of this report can be found in Attachment D. This option contains summary totals for the school and identifies students designated as in the top 20 percent. It also provides the student's name, ID and eligibility status. For students not yet eligible, the number of credits missing in each of the six subject area categories will be available.
- The report will be sorted alphabetically by the student's last name. By clicking on the student's eligibility status, the user can then bring up an individual Student Evaluation Report (see Attachment E). The report lists which courses were submitted with the student's transcript, identifies which were applied and how much each course's credits counted toward satisfying one of the Talented Twenty subject area requirements.

**Technical Assistance Paper**  
**Technical Specifications for the Submission of Data for the**  
**Talented Twenty Program**

- **Option 2: District Progress Report** – This report is in the same format as the school summary totals in the Evaluation Summary but contains the totals for the entire school district (this option is only available to district-level users).
- **Option 3: Evaluation Summary for All Students** – This report covers every student for the selected graduating class and will contain a column for the student’s GPA (an unweighted calculation based on the credits used in satisfying the 18- or 24-credit state graduation requirement) instead of a column for eligibility status. The report will be sorted in descending order by GPA. Similar to the top 20 percent summary, users can click on a column for the student (in this case, the GPA column) to bring up an individual Student Evaluation Report.

If you have technical questions concerning the processing of FASTER transcripts, please contact the FASTER Office at [fstr@fldoe.org](mailto:fstr@fldoe.org). If you have questions regarding the Talented Twenty program, please contact Felicia Trumpler at 850-245-7851 or [Talented20@fldoe.org](mailto:Talented20@fldoe.org).

Additional information about the Talented Twenty program, can be found at <https://www.fldoe.org/schools/k-12-public-schools/bosss/talented-twenty-program/>.

**Sample Letter for Seniors Meeting Talented Twenty Program Criteria**

(Use school district or school letterhead)

Date

Dear (Student's Name):

Congratulations on your significant academic accomplishments! Given that you have been ranked in the top 20 percent of your graduating class, you may be eligible to secure guaranteed admission to one of Florida's 12 state universities, within space and fiscal limitations, through Florida's Talented Twenty program. You must meet the following Talented Twenty eligibility criteria below:

- Be enrolled in a Florida public high school and will graduate with a standard diploma.
- Be ranked in the top 20 percent of your class after the posting of the seventh semester grades of your final high school year.
- Have submitted test scores from the Scholastic Assessment Test (SAT) Reasoning Test or redesigned SAT scores from the College Board, or the ACT from ACT.org, prior to enrollment in a university in the State University System.
- Have completed all eighteen high school units as listed in the Board of Governors Regulation 6.002.

Talented Twenty students are also given priority in the awarding of funds from the Florida Student Assistance Grant, a needs-based grant. This is only possible if students apply prior to financial awards being distributed. Please visit <http://www.FloridaStudentFinancialAid.org> for eligibility requirements and additional information on state financial aid and scholarship opportunities.

Please note that while eligible students are guaranteed admission to one of Florida's state universities, within space and fiscal limitations, they may not necessarily be admitted to the university, program of study or entry point (summer, fall, spring semester) of their choice. Students are required to apply to at least three state universities prior to seeking a special review. Students are strongly encouraged to apply as early as possible in order to have the most options available to them. It should be noted that most state universities have completed their admission decisions by May.

Sincerely,

School Designee or Representative
