District MIS Directors

FROM: Dr. Eric J. Smith

SUBJECT: Revisions to the Performance on the Common Placement Test Report

---

The report on High School Graduates' Performance on Common Placement Tests is available online at http://www.fldoe.org/articulation/perfCPT/. Student-level performance data can be accessed via the mainframe as a sequential file or in a formatted report. This mainframe access allows districts to query and print specific information needed for local reporting purposes. The data for this report is maintained by the Department of Education's K20 Education Data Warehouse, which collects data across years and surveys.

The following instructions are to assist district MIS directors in accessing student-level performance data via the mainframe. The database name for the sequential file is DPS##.EDW.PERFCPT.DATA.Y0506 (##=district number), and the following format is provided. The dataset name for the formatted report is DPS##.EDW.PERFCPT.REPT.Y0506. If you have questions, please contact Education Information Services at (850) 245-0400, Suncom 205-0400. In the event that a duplicate student record appears in a school report, please note that this can occur when the data warehouse receives variations in student identifiers over time, such as social security numbers or last name, first name, etc. (i.e., Bill vs. Billy). We ask that districts determine which data is valid for any duplicate listings. These duplicates were not included in the reports published on the web.

General questions about students' Performance on Common Placement Tests or the High School Feedback Report can be referred to Dr. Shruti Graf at shruti.graf@fldoe.org or (850) 245-7820.
