Introduction

The 2004-05 Florida Education Finance Program (FEFP) provides funding for a 180-day regular school year for students attending schools that are not juvenile justice facilities. Students attending juvenile justice facilities are funded for a 230- to 250-day school year. With the exception of Department of Juvenile Justice (DJJ) programs and the Florida Virtual School, Prekindergarten through Grade 12 (PK-12) courses offered beyond the regular 180-day school year are not funded on a full-time equivalent student (FTE) basis in the FEFP. However, these PK-12 courses offered beyond the regular 180-day school year, including intersessions, may be funded through the Supplemental Academic Instruction (SAI) Allocation, including the Summer Reading Allocation.

“Date certain” is always the Friday of survey week.

Courses offered by the Florida Virtual School and franchises of the Florida Virtual School will be funded on a successfully completed credit basis, with districts only earning FTE for courses in which they provide instruction. Details on the reporting of FTE for students earning credit in the Florida Virtual School and franchises of the Florida Virtual School can be found in Appendix E of these instructions. **Districts may not earn or report FTE for direct instruction provided by the Florida Virtual School.**

With the exception of Department of Juvenile Justice summer school and the Florida Virtual School, which are funded through the FEFP, summer school program funding is not dependent on reported FTE. However, districts are required to report summer school FTE, including the FTE associated with extended school year programs and summer reading programs for use by the Department of Education in providing statistical reports and for capital outlay funding.

Please refer to Appendix C for FEFP programs that are eligible for FTE reporting and funding for the 2004-05 school year.

Adult postsecondary vocational and adult general education programs have been funded through Workforce Development since 1997-1998. All adult postsecondary vocational and adult general education program information is reported through the Workforce Development Information System (WDIS), with the exception of the portion of vocational postsecondary dual enrollment for which the district of enrollment is eligible to earn funding under the FEFP.

These instructions provide a detailed explanation of the standard methodology for reporting prekindergarten through grade 12 FTE by student by course. The instructions are organized as follows:

1. The first section provides general guidelines for reporting, including information concerning general procedures, survey periods, eligibility criteria, definitions, and information regarding FTE reporting for unique scheduling approaches such as year-round schools, extended school year, and PK-12 short courses;
2. The second section provides specific procedures, including records reporting, FTE reporting prioritization by FEFP program, calculation of FTE, the edit process, and PK-12 specific procedures;
3. The third section provides special instructions for reporting students who are enrolled in Advanced Placement courses, International Baccalaureate courses, Advanced International Certificate of Education courses, dual enrollment courses, certain specific program areas, students enrolled in nonpublic schools or home education programs who receive instructional services at public institutions and hospital/homebound students;
4. The fourth section provides information on local record-keeping procedures;
5. Appendix A provides a table of FEFP membership minutes and the equivalent value of *FTE Earned, Course*;
6. Appendix B provides a sample of K-12 short course reporting;
7. Appendix C provides a list of FEFP programs eligible for FTE funding for the 2004-2005 school year;
8. Appendix D provides information on reporting requirements for students participating in the Opportunity Scholarship Program and the John M. McKay Scholarships for Students with Disabilities Program; and
9. Appendix E provides Virtual School reporting instructions.

General Guidelines for Reporting

Regular School Year

A separate Student Course Schedule format must be reported for each class in which a PK-12 student is in membership during each of the Survey Periods, **regardless** of the eligibility of that student, to be counted for funding in the Florida Education Finance Program. These include students not eligible because of attendance and students funded through the Supplemental Academic Instruction (SAI) Allocation or the Summer Reading Allocation.

PK-12 students in courses which take place outside the survey week during the regular school year are eligible for short course reporting. Please refer to the section on reporting short courses for PK-12 students.

The survey periods for record determination are prescribed annually by the Commissioner of Education. For FTE reporting purposes, the survey periods cover the following time frames:

1. **Survey Period 1 (July)** covers from the beginning of the fiscal year (July 1) to the beginning of the defined 180-day school year;
2. **Survey Period 2 (October)** covers the first 90 days of the 180-day school year;
3. **Survey Period 3 (February)** covers the second 90 days of the 180-day school year; and
4. **Survey Period 4 (June)** covers the period from the end of the 180-day school program to the end of the fiscal year (June 30).

An additional Survey Period, **Survey Period 5**, covers reporting of prior school year data such as the Advanced Placement, Advanced International Certificate of Education and International Baccalaureate programs. The data for this survey period cover the entire school year that ends in August.

It is critical that districts correctly report the FTE associated with the International Baccalaureate, Advanced international Certificate of Education and Advanced Placement programs during the survey period processing time frame.

Extended School Year Survey Periods

An extended school year program is separate and distinct from year-round school programs and summer school programs. Extended school year programs are a true extension of courses provided during the second semester of the regular 180-day school year with no break in instruction. Supplemental Academic Instruction allocation funds may be used for extended school year programs.

The records for students attending the extended days of the school year must contain a Year-Round/Extended School Year FTE Indicator code of "B" to indicate that the FTE being reported is for extended school year instruction. The records for the first 180 days are reported as any other 180-day school year records.

Extended school year survey periods for record determination and FTE reporting are the same as the regular school year survey periods except that survey period 4 (June) covers the period of time which extends the school year to the end of the fiscal year (June 30).

Year-Round School Program Survey Periods

Survey periods for the Year-Round School program are the same as the regular fiscal year. However, the following descriptions specify how the count weeks are determined and how they are used in determining attendance and membership for FTE eligibility.

Regular School Year for Year-Round Schools

Regular School Year Reporting

Year-round schools should report the first 90 days of their regular 180-day school year in survey 2 and the second 90 days of their regular 180-day school year in survey 3, regardless of when the tracks are in session.

Tracks not in Session

If it is survey week and the year-round school student track is not in session, then the last 5 days that the track was in session prior to survey week for both the October and February survey periods become the established survey period. Use the final five days for survey week and the preceding six scheduled class days for determining eligibility, and conduct the count in the normal manner. All current procedures for date certain and other related count issues apply.

Intersession

If the student is in beyond 180-day instruction during an "off-track" period, the *FTE Earned, Course* for that student shall be reported in the Survey Period in which the instruction occurs. For example, if the instruction occurs during the time frame covered by Survey Period 2, the FTE by student by course should be reported for that period either during the normal processing time for Survey Period 2 or as an amendment to Survey Period 2.

Intersession survey week should be established by using the middle day/middle week of the period. Determine attendance and membership for eligibility in the normal manner. **The records submitted for state processing must contain a Year-Round/Extended School Year FTE Indicator code of "A" to indicate that the FTE being reported is for "beyond 180-day" instruction.**

Alternate Survey Period

If the Commissioner of Education approves an alternate survey period in accordance with the provisions of Rule 6A-1.0451(2), FAC., the alternate survey data shall be used in place of the regular survey FTE and associated data, provided the FTE meets the percentage requirements specified in the rule. **It is the responsibility of the district requesting the alternate Survey Period to verify the percentage requirements.**

Rule 6A-1.0451(2), FAC.:

The Commissioner shall have the authority to establish for any school district or school an alternate date for a full-time equivalent membership survey or transported student membership survey within nine (9) weeks of the regular statewide survey if evidence is submitted by the school district which indicates an abnormal fluctuation in student membership has occurred at the time of the statewide survey. The alternate date shall be established by the Commissioner prior to conducting the survey. In determining what constitutes an abnormal fluctuation, the Commissioner shall examine the historical trends in student membership and limit consideration to changes in which there is a variation in excess of twenty-five (25) percent in any school, or five (5) percent in the district between the membership count at the time of the statewide membership count and the alternate membership count due to factors such as major student boycotts; civil disturbances; in-migration or out-migration in agricultural, industrial, and federal installations or contractors; or providential causes beyond the control of the district school board.

If an alternate survey is approved, the district must complete and report the data for the scheduled survey and the alternate survey.

Short Courses

A short course is any course that begins and ends outside of survey week. This could also apply to courses that span reporting periods. For short courses, all reporting algorithms, rounding conventions, and program membership and attendance requirements are the same as for the regular 180-day school year.

Within the PK-12 program, classes may be reported as short courses during the regular 180-day school year. At the time of the regularly scheduled survey week for the 90-day semester, the student's schedule, **including short courses**, shall be used for calculating FTE. No special or alternate survey is required for short course reporting. The *FTE Earned, Course* must be calculated using scheduled *Days in Term*. The 25-hour limit will not apply; however, the 0.5000 *FTE Earned, Course* limit for the 90 days will be in effect. See Appendix B for sample short course reporting. For short courses not in session during survey week, the middle week/midpoint of the class is used for determining those students who meet the membership and attendance requirements. **Under no circumstances is the traditional 90-day "snap shot" approach allowable for short course reporting.**

Summer program classes and intersession periods for Grades PK-12 that operate in periods of time other than during survey week are counted by using the middle week/midpoint of the period for determining attendance and membership for FTE eligibility. Again, the *FTE Earned, Course* must be calculated by using scheduled *Days in Term*.

Courses Eligible for Funding During Regular 180-Day School Year

During Survey Periods 2 and 3, PK-12 students are eligible to earn FTE if the class operates during the survey week, and the student meets both program membership and attendance requirements. In addition, it is recommended that Student Course Schedule records be transmitted for students in PK-12 programs/classes that operate outside of survey week during the time frame covered by the Survey Period. For PK-12 short courses, eligibility is determined either during the regularly scheduled survey week for all courses including short courses scheduled for the 90-day period, or by using the middle week/midpoint of the period method for courses scheduled outside of survey week.

Courses Reported for Beyond Regular 180-Day School Year (Summer School and Year-Round School Intersessions)

PK-12 courses offered beyond the regular 180-day school year including intersessions, with the exception of Department of Juvenile Justice Programs and the Florida Virtual School, are funded through the Supplemental Academic Instruction allocation. The FTE for intersession and summer school courses is reported even though the FTE does not earn FEFP funds.

The following summer school criteria/guidelines must be adhered to:

1. Report the FTE for courses offered beyond the 180-day school year as described in the section "Reporting *FTE Earned, Course* for Summer Sessions."
2. A student in cooperative education or other programs incorporating on-the-job training, including apprenticeship, shall not be counted for more than 25 hours per week **in all programs**.
3. Do not report the FTE for enrichment or recreation courses.

4. If district policies and procedures permit, a student attending summer school to repeat a course for forgiveness need only attend for the time it takes to master the student performance standards that were not mastered the previous time the course was taken. FTE is reported for the actual time the student was in attendance.

Specific Guidelines for Reporting

Determining FTE Earned by Student by Course for Classes Operating During Survey Week

For all classes operating during the survey week, the following procedures must be used to determine which student course schedules are reported.

Step 1: Setting "Date Certain"

"Date certain" for each survey will be the Friday of survey week. This applies to all schools in all school districts. The "date certain" during the FTE survey week is the specific time for setting the student's schedule as mentioned in the step below.

Step 2: Student Course Schedule Record

A local student course record containing all of the elements which will be used in both the reporting of *FTE Earned, Course* and for meeting other state information requirements must be developed for each course in which the student is in membership. To be included in the record are the following:

- A. Record Identifiers
 - 1. District Number, Current Enrollment
 - 2. School Number, Current Enrollment
 - 3. Student Number Identifier, Florida
 - 4. Survey Period Code
 - 5. Fiscal Year

- B. Course Identifier Information
 - 1. District Number, Current Instruction
 - 2. School Number, Current Instruction

3. Term
 4. Course Number
 5. Section Number
 6. Period Number
 7. Days Per Week
 8. Class Minutes, Weekly
 9. FEFP Membership Minutes, Weekly (set to 0000 [all zeros])
 10. FEFP Program Number
 11. FTE Earned, Course (set to 0000 [all zeros])
 12. FTE Eligibility Flag
- C. Other Data
1. Grade Level
 2. Limited English Proficiency: Instructional Strategy
 3. Year Round/Extended School Year FTE Indicator
 4. Dual Enrollment Indicator
 5. Vocational/Audit General Education Program Code

Step 3: Membership/Enrollment

Each PK-12 student must meet the membership requirement as discussed in this paragraph to **be eligible to be reported**, and must also meet the attendance requirement discussed in Step 4 to **be eligible for funding**. On the Friday of survey week, the district must capture the student course schedule for **each student** who is on the membership roll for that week. If the student has at least one day of membership during survey week, the student meets the membership requirement and is eligible for reporting. The student is in membership when he is **officially assigned** to a course or program by a school or district. **Any student who is not in membership during survey week does not meet program membership requirements and should not be considered for reporting. For example, if the student's last day of membership is Friday prior to survey week, the student does not meet the membership requirement and is not eligible to be reported.**

For those PK-12 students who are not eligible to earn funding through the FEFP but are still on the district's membership roll (for example - summer school students exclusive of DJJ students, and others not eligible to earn FTE through the FEFP), the district must submit all records with all elements completed with valid information, with one exception. For students who are not funded through the FEFP (excluding summer school students), the district should report 999 as the *FEFP Program Number* and 0000 (all zeros) for *FTE Earned, Course*. These records should be sent along with the records that will be addressed in Steps 4-10.

Step 4: Attendance

For all students for whom course records are generated because the membership requirement has been met, the district must determine whether or not the student meets attendance requirements. Using the Automated Student Attendance Record-keeping system, the district must verify that the student has been in attendance during the 11-day window. That is, the student must have been in attendance **at least one of the days** of the survey week **or one of the six scheduled days** preceding the survey week in which school was in session. It should be noted that when the procedures outlined in the DOE Information Database *Attendance Procedures* are applied, the appropriate withdrawal code is shown on the day following the last day of membership. FTE eligibility as related to attendance for students in grades PK-12 is not determined on a course by course basis; instead, it is determined on a daily basis. The documentation which verifies that the student met the attendance requirements for FTE eligibility must be maintained for a period of three years or until all applicable audits have been completed, whichever is longer. For all students who meet the attendance requirements, Steps 5-9 must be followed. For those students who DO NOT meet the attendance requirements, set the FTE Eligibility Flag to N and convert the record to the State Student Course Schedule format. Go to Step 9 for continued processing with those records.

Step 5: Verification

For all students who meet the attendance requirements specified in Step 4, the district must verify that the Course Number referenced in the local student course record is a valid course number listed in the official Course Code Directory for the reporting year or is in the Statewide Course Numbering System, and that the proper FEFP Program Number has been assigned to the course for that student. Additionally, program membership through the various selection and placement procedures must be verified for students who are in special program categories. Audit records must be maintained for program membership as defined in the Local Record-keeping Procedures section later in this document. Other

elements should be completed and verified as they relate to that course for that student.

STEP 6: Reporting Priority

Sort each course record for each student into rank order, so that the records with the special FEFP program numbers are listed first followed by the basic course records. Specifically, course records for each student will be sorted into the following rank order.

NOTE: All school site instruction for both basic and special program courses must be calculated for *FTE Earned, Course* before off-site instruction is considered for reporting. (See the discussion of *FTE Earned, Course* for students enrolled in on-the-job and cooperative training later in this document.)

FEFP PROGRAM NAME	FEFP PROGRAM NUMBER	FUNDING RANK ORDER
ESE Support Levels, including ESE students funded as a basic student and receiving funding from the ESE Guaranteed Allocation	111, 112, 113, 254, & 255	1
Vocational Education Grades 9-12	300	2
English for Speakers of Other Languages	130	2
Basic	101, 102, & 103	3

Within the rank order groups shown above, districts may decide in which order the special program category courses will be reported. For example, if a student has course records with FEFP Program Numbers in two special program categories and one basic program, the district may choose which of the special program categories is selected first for determination of *FTE Earned, Course*. The *FTE Earned, Course* for both special program categories must be calculated before the basic program is calculated. It is possible for all FEFP Membership Hours to be exhausted before considering a basic course for reporting of *FTE Earned, Course*. See Step 7 for a further discussion of *FTE Earned, Course* if all course records (each State Student Course Schedule format for a student) are basic program category courses.

Step 7: Reporting *FTE Earned, Course*

The number of hours for which a PK-12 student may be reported is based on and limited to a maximum of 900 hours per 180-day school year with the exception of DJJ students. (See the section on FTE Calculation and Reporting for Students in Department of Juvenile Justice Educational Programs later in this document.)

In order to carry out the necessary calculations prior to creating the State Student Course Schedule format, certain conversions must be made to instructional time for some students in order to base instructional time on 900 class hours annually for all students. These types of students are the following:

- A. Students whose Grade Level is PK-03 and PK handicapped who have *Class Minutes, Weekly* that aggregated across all courses on an annual basis are greater than 720 hours annually but less than or equal to 900 hours annually;
- B. Students whose Grade Level is PK-03 and PK handicapped who are in a double session school with an aggregated annual value of *Class Minutes, Weekly* equal to or greater than 630 hours annually but less than 900 hours annually; and
- C. Students whose Grade Level is 04-12 who are in a double session school with an aggregated annual value of *Class Minutes, Weekly* across all courses that is equal to or greater than 810 class hours annually but less than 900 hours annually.

All remaining classifications of students (those with a Grade Level of 04-12 in a regular session school) are funded on the hours they earn converted to *Class Minutes, Weekly*.

For those students who meet the special case considerations in Items A-C above, the value of *Class Minutes, Weekly* should be converted to a value based on 900 hours. For part-time students, the conversion should be based on the same number of hours as full-time students in that school. Using the sorted course records from Step 6, convert the actual value of *Class Minutes, Weekly* (only for the purposes of reporting *FTE Earned, Course*) for each course to its equivalent value on a basis of 900 hours annually (1500 minutes weekly). The conversion is done by solving for "x" in the following equation:

$$\frac{\text{Class Minutes Weekly}}{\text{Length of School Week (minutes)}} = \frac{X}{1500}$$

X = converted value in class minutes weekly

Each calculation is carried out to five places and rounded to four.

The net effect of this equation is to put all course records on the basis of 900 class hours for the purpose of reporting *FTE Earned, Course*. Using the equation above, a class that meets 225 *Class Minutes, Weekly* during a school week (in minutes) of 1350 converts to a value of 250 *Class Minutes, Weekly* based upon 1500 *Class Minutes, Weekly* (900 hours annually). See the example below.

$$\frac{225}{1350} = \frac{250}{1500}$$

Determining *FTE Earned, Course*

Upon equalizing the value of *Class Minutes, Weekly* for the students in the previous section and for those students whose value of *Class Minutes, Weekly* aggregated on an annual basis exceeds 900 hours for all courses, the following is required for all courses during Survey Periods 2 and 3:

- A. Using the sorted course records from Step 6, determine the number of FEFP membership minutes the student is in membership for the first course chosen of the special programs. Using that value of *FEFP Membership Minutes, Weekly*, search the table in Appendix A for the same value and retrieve the value of *FTE Earned, Course*. This value will be reported as the *FTE Earned, Course* for that course.
- B. If there are additional course records for that student which represents special FEFP programs, and the aggregate value of *FTE Earned, Course* for that student is less than 0.5000, the process referenced in Step A above is repeated. The resulting value of the second retrieval is then added to the aggregated value of *FTE Earned, Course* and compared to 0.5000. This process will be repeated until the aggregate value of *FTE Earned, Course* across all courses is equal to 0.5000 or until there are no courses remaining to be considered for the student.

When reporting *FTE Earned, Course* for a student with all basic program courses, or when residual *FTE Earned, Course* is available after reporting special program courses, the assignment of *FTE Earned, Course* to those basic program courses shall be done on a successive period basis beginning with the first basic program course in the student's schedule and continuing until the aggregate value of *FTE Earned, Course* is at 0.5000.

- C. When reporting the value of *FTE Earned, Course* for the various courses in which a student is enrolled, it is possible for the student to have courses remaining after the aggregated value of *FTE Earned, Course* has reached the maximum of 0.5000. In those cases, the district should report all of the remaining courses with a value of *FTE Earned, Course* set to zero (0000) but have all other information completed appropriately.

Reporting *FTE Earned, Course* for KG-05 Students

For those students who have a *Grade Level* of KG-05 and are enrolled in a self-contained class, it is recommended that the district report all classes in the following manner:

- A. If the student is enrolled only in self-contained classes for basic funded instruction, the district may use the self-contained course number to report *Class Minutes, Weekly* and *FTE Earned, Course*. Additional course numbers may be reported for the student (e.g., Art, Music, Physical Education, and others), but both the value of *Class Minutes, Weekly* and *FTE Earned, Course* will be reported as zeros (0000) because that time is reported under the self-contained course number. However, an alternative method which may be used is to report appropriate *Class Minutes, Weekly* and *FTE Earned, Course* for the self-contained course as well as the other courses such as Art, Music, and Physical Education.
- B. If the student is enrolled only in self-contained classes for both basic funded instruction (FEFP Program Numbers 101 and 102) and ESOL funded instruction (FEFP Program Number 130), the district may use the self-contained course number to report *Class Minutes, Weekly* and *FTE Earned, Course* for both the basic and ESOL funded time. Additional course numbers may be reported for the student (e.g. Art, Music, Physical Education, and others), but both the value of *Class Minutes, Weekly* and *FTE Earned, Course* will be reported as zeros (0000) as in Step A above.
- C. If the student is enrolled in courses such as Language Arts, Math, Science, and other courses, the values of *FTE Earned, Course* and

Class Minutes, Weekly must be reported for each class. The use of a self-contained number is not allowed in this instance to report either *FTE Earned, Course* or *Class Minutes, Weekly*.

Reporting *FTE Earned, Course* for Students in Grade 06

If the student has a *Grade Level* of 06 in a middle school setting, and the district schedules that student in a manner similar to students with a *Grade Level* of 07 or 08, the district should use the regular course numbers for Grades 06-12. Otherwise, the district may use the self-contained number for the student in Grade 06.

Reporting Block Scheduled Classes for FTE

Districts whose schools are scheduling classes that rotate lengths or offerings from one week to the next are to report these classes in the manner described below. Block scheduling of this type is reported as an average of the time students are scheduled in classes.

In order to properly report the block schedule:

- A. Determine the student's eligibility for reporting as it is normally determined.
- B. Add together the time they are in each of the classes for the span of time being reported. This will include the survey week and the other weeks of the valid scheduling option.
- C. Use an average of the *Class Minutes, Weekly* to determine the value of *FTE Earned, Course*.

Example: A student is block scheduled for 10 hours of a math course and 10 hours of a science course for alternating weeks. During survey week, the student's schedule reflects 10 hours of the math course and 0 (zero) hours of the science course. For the week following survey week, the student's schedule reflects 0 (zero) hours of the math course and 10 hours of the science course. For survey week, the student's time for calculating FTE should be based on an average of 5 hours for the math course and 5 hours for the science course.

Vocational wheel classes should be reported to reflect the student's schedule on date certain.

Reporting *FTE Earned, Course* for Summer Sessions

Within the PK-12 program, summer program classes that operate in periods of time other than during survey week are to be reported by determining the middle week or middle day (if less than a week) of the period for establishing membership.

FTE must be reported in the fiscal year in which the instruction occurs. The FTE for instruction that occurs in June must be reported in the June survey (Survey Period 4), and the FTE for instruction that occurs in July must be reported in the July survey (Survey Period 1).

To calculate summer school FTE, divide scheduled hours for the summer session by 720 for grades PK-03 or 900 hours for grades 04-12.

For other information regarding summer school reporting, please refer to the discussion earlier in this document, "Courses Reported for Beyond Regular 180-Day School Year."

Step 8: Local Edit Process

Using the records and all of the reported values of *FTE Earned, Course*, the district must apply certain edits prior to conversion of the district records to the State Student Course Schedule format. Among the specific edits to be performed as they relate to FTE elements are:

A. Total FTE Limit

During Survey Periods 1, 2, 3, **or** 4, students whose Grade Level is PK-12 may not exceed 0.5000 aggregated *FTE Earned, Course* (based on maximum of 900 class hours for the regular 180-day school year).

B. OJT and DCT

Students who are enrolled in Course Numbers which are on-the-job training and cooperative training or similar programs which include training at **other than school sites** must have **all time spent at school sites counted as part of membership hours. That is, all school site instruction for both basic and special program courses must be calculated for *FTE Earned, Course* before off-site instruction is considered for funding.** Total membership hours for on school site and other than school site for on-the-job training and cooperative training programs shall not exceed 25 hours per week of funded membership. Total membership hours in such cases may not exceed normal student membership hours for students in that school.

C. Pullout Classes

Pullout classes must be properly identified and reported with the appropriate period number. Also, the *Class Minutes, Weekly* must be adjusted for both the class from which the student was pulled and the class being reported as a pullout class.

D. Prekindergarten FTE

Prekindergarten students are not eligible for funding under the FEFP with the exception of (1) children of students in the Teenage Parent program reported in FEFP Program Number 101, (2) students age three and above with Grade Level PK who are reported in FEFP Program Numbers 111, 254, or 255 (excluding students who are gifted), and (3) students below age three reported in FEFP Program Numbers 111, 254, or 255 with disabilities (Exceptionality, Primary) of deaf or hard of hearing, visually impaired, physically impaired, trainable mentally handicapped, profoundly mentally handicapped, dual-sensory impaired, autistic, severely emotionally disturbed, developmentally delayed, or established conditions.

E. Survey Period Code

Survey Period Code must be valid for the period covered by the data. That is, if the data are being reported for "Count 2" (the first 90 days of the 180-day school year), Survey Period Code must be "2."

F. Calculation Priority

FTE Earned, Course for courses with special program *FEFP Program Numbers including 111, 112, and 113*, must be calculated prior to courses with basic program numbers, except as provided in Item B of this section.

G. Verification of Requirements

Verify that the requirements of Section 1001.42, Florida Statutes, have been met as they relate to the reporting of students under the Florida Education Finance Program.

Step 9: Conversion to Student Course Schedule Format

Convert all district course records to the State Student Course Schedule format for running DOE supplied edits.

Step 10: Audit File

Create an audit file which must be retained until all audits are made by **both the Department of Education and the Legislative Auditor.**

Step 11: FTE Amendments

Rule 6A-1.0451(4), FAC., allows districts to make amendments to their FTE Student Membership surveys for a period of nine months from the due date of the survey or until a membership survey audit has been completed, whichever takes place first. Districts are encouraged to pay special attention to the error reports provided and make amendments accordingly. **When Student Course Schedule records are submitted for reporting FTE, matching Student Demographic Information, Teacher Course records, and Exceptional Student Education records for students with active Individual Education Plans must also be submitted in order to avoid nulling of FTE.**

Additional Instructions/Information

Advanced Placement

Advanced placement courses may be taken by a student at a school district, community college, or university. Reporting and calculation procedures differ, depending upon where the course is offered.

A. Courses are Taught by a District

1. A Student Course Schedule must be developed for that course for that student;
2. The course number must be an advanced placement course in the Course Code Directory;
3. The value of *FTE Earned, Course* must be calculated as for any other course;
4. A Teacher Course Record must be created for that course;
5. To earn 0.24 additional FTE, the student must have been enrolled in the A/P course and score 3 or higher on the subject examination. These values are to be reported on the **Student End of Year Status** format in August (Survey 5) in the year of enrollment. These values may only be reported as multiples of 0.24. **Records submitted with values which are not multiples of 0.24 will be rejected.**

B. Courses are Taught by a Public or Private Community College or University

1. A Student Course format must be developed for that course for that student;
2. The course number must be from the Statewide Course Numbering System or the number of the course from the eligible nonpublic community college or university and be approved for advanced placement;

3. The school number must be either a community college (C901-C928), university (U970-U980), or nonpublic school (P001-P999) number;
4. The FEFP Program Number must be 103;
5. If Advanced Placement Supplemental FTE based on college board advanced placement scores reported in the survey period 5 is to be claimed for the student, the value of FTE Earned, Course must be 0000 for the survey period in which the course is reported (1, 2, 3, or 4);
6. A Teacher Course record format must be created for the course;
7. The student who has been enrolled in Advanced Placement course(s) and scores 3 or higher on the subject examination is eligible to earn 0.24 for each subject area. This value is reported on the **Student End of Year Status** format which is reported in August (Survey 5) in the year of enrollment. If the student does not score 3 or greater on the subject examination, no FTE may be claimed by the district on the Student End of Year Status format for that course for that student.

International Baccalaureate

Districts may earn additional FTE for students who are in International Baccalaureate courses under two special cases. These are:

1. When a student scores 4 or higher on a subject exam;
and
2. When a student receives an International Baccalaureate diploma.

To report a student for funding for this category, the district must submit a Student End-of-Year Status format in Survey 5 for the student. The format item for each of the categories must be completed accordingly.

The student who has been enrolled in International Baccalaureate course(s) and who scores 4 or higher on the subject examination is eligible to earn an additional 0.24 FTE for each subject area. Multiple values of 0.24 may be recorded for the student, as appropriate for the element *FTE Earned, International Baccalaureate Score* on the **Student End of Year Status** format. **Records submitted with values that are not multiples of 0.24 will be rejected.**

For the students who receive an International Baccalaureate diploma, the value of 0.30 FTE must be recorded for the element *FTE Earned, International Baccalaureate Diploma* on the **Student End of Year Status** format. **Only the value of 0.30 FTE may be recorded for this element. Otherwise, the record will be rejected.**

Advanced International Certificate of Education

Districts may earn additional FTE for students who are in Advanced International Certificate of Education courses under special cases. These are:

1. When a student scores 2 or higher on a full-credit subject exam or 1 or higher on a half-credit subject exam; and
2. When a student receives an Advanced International Certificate of Education diploma.

To report a student for funding for this category, the district must submit a Student End-of-Year Status format in Survey 5 for the student. The format item for each of the categories must be completed accordingly.

The student who has been enrolled in Advanced International Certificate of Education course(s) and who scores 2 or higher on the subject examination is eligible to earn an additional 0.24 FTE for each full-credit subject area. A value of 0.12 full-time equivalent student membership shall be calculated for each student enrolled in a half-credit Advanced International Certificate of Education course who receives a score of 1 or higher on a subject examination. Multiple values of 0.12 and 0.24 may be recorded for the students, as appropriate for the element *FTE Earned, Advanced International Certificate of Education Score* on the **Student End of Year Status** format. **Records submitted with values that are not multiples of 0.12 and 0.24 will be rejected.**

For the students who receive an Advanced International Certificate of Education diploma, the value of 0.30 FTE must be recorded for the element *FTE Earned, Advanced International Certificate of Education Diploma* on the **Student End of Year Status** format. **Only the value of 0.30 FTE may be recorded for this element. Otherwise, the record will be rejected.**

Academic Dual Enrollment

For those students who are dual enrollment students at either a public or private community college or university for which a district interinstitutional articulation agreement exists per Section 1007.235, Florida Statutes, the

procedures below must be followed. **Please note, dual enrollment/early entrance agreements can only be with Florida institutions. A student shall not be claimed for funding under this procedure when the student is enrolled in an out-of-state college or university.** Students who are dually enrolled at a **public or private community college or university** and who meet all eligibility requirements should be reported as follows:

1. A student course format must be developed for that course for at student;
2. The course number must be from the Statewide Course Numbering System or the number of the course from the eligible nonpublic community college or university;
3. The FEFP Program Number must be 103;
4. The value of *FTE Earned, Course* must be calculated as any other basic course;
5. The school number must be C901-C928, U970-U980, P001-P999, or N999;
6. Dual Enrollment Indicator must be A; and
7. A teacher course record format must be created for the course.

Vocational Dual Enrollment

Postsecondary vocational instruction is not funded through the Florida Education Finance Program. Districts providing this instruction report all related information through the Workforce Development Information System (WDIS). However, the district of enrollment is funded through the FEFP and reports the FTE in Basic FEFP Program Number 103.

The following discussion provides descriptions of the different vocational dual enrollment instructional settings and provides instructions to the district of enrollment for reporting *FTE Earned, Course* for students **who meet all eligibility requirements.**

A. Postsecondary Vocational Instruction Provided at a Vocational Technical Center Located in Another School District

1. The district of enrollment must create a student course record format with its district number and school number as the one of enrollment and instruction. **Documentation must be maintained**

to show that the student is a dual enrollment student. The district of enrollment is the district sending the student for dual enrollment instruction.

2. The **District of Enrollment** must report the value of *FTE Earned, Course* in the Basic FEFP Program Number 103. The Aggregate *FTE Earned, Course* for the student is subject to the 0.5000 limit for the reporting period.
3. The value of *Class Minutes, Weekly* will be the value for that course **as taught in the district of instruction.**
4. Dual Enrollment Indicator must be C.
5. A matching teacher course record format must be created for the Student Course record(s).

Note: The postsecondary vocational dual enrollment instruction is reported in WDIS.

B. Postsecondary Vocational Instruction Provided at a Community College

Students who are dually enrolled in a **community college** for vocational instruction and who meet all eligibility requirements should be reported by the district of enrollment as described in Item A above. However, the school number for the *School Number, Current Instruction/Service* element should be the community college number. Dual Enrollment Indicator must be B or C as appropriate.

C. Postsecondary Vocational Instruction Provided by Community College Personnel on the Campus of a Secondary School

When the postsecondary vocational instruction is provided by community college personnel on the campus of a secondary school, the secondary school reports the dual enrollment courses using FEFP Program Number 103. In addition, report any other courses in which the student is enrolled. In this case, the *School Number, Current Instruction/Service* is that of the secondary school. The aggregate *FTE Earned, Course* for the student is subject to the 0.5000 limit for the reporting period. Dual Enrollment Indicator must be B or C as appropriate. In addition to the course records, matching teacher course record formats must be submitted.

D. Postsecondary Vocational Instruction Provided at a Vocational Technical Center Located in the Same School District

In this case, students are enrolled in and receive instruction at a secondary school and also receive postsecondary vocational instruction at a vocational technical center operated by the same school district. The secondary school must report the dual enrollment (postsecondary vocational) courses with the Basic FEFP Program 103. *School Number, Current Instruction/Service* is that of the secondary school. In addition, the elements *Days/Week*, and *Class Minutes, Weekly* will be the value for that course as taught at the vocational technical center. Dual Enrollment Indicator must be C. Matching teacher course record(s) must be submitted.

Dropout Prevention Programs

The FTE formerly reported in FEFP Program 120, Dropout Prevention, Teenage Parent, including Educational Alternatives Grades 4-8, and FEFP Program 121, Educational Alternatives Grades 9-12, are reported in the appropriate basic FEFP programs 101, 102, and 103. **For districts that maintain Dropout Prevention programs, students in these programs must be reported under the appropriate code on the *Dropout Prevention/Juvenile Justice Programs* data element.**

Preschool children of students enrolled in the Teenage Parent Program, which is authorized in Section 1003.54, Florida Statutes, are reported in FEFP Program Number 101 using the Course Number 5200000 and the Grade Level of PK. However, if the preschool child is also identified as disabled, either FEFP Program Number 111 (K-3 Basic, with ESE Services), 254 (Support Level 4), or 255 (Support Level 5) is used for the exceptional courses.

English for Speakers of Other Languages (ESOL), FEFP Program Number 130 (K-12)

In these programs, student FTE reported for FEFP funding shall comply with Section 1003.56, Florida Statutes, and the instruction shall be provided through courses listed in the current Course Code Directory as English for Speakers of Other Languages (including the following courses: M/J ESOL L/S/R/W 1, M/J ESOL L/S/R/W 2, M/J ESOL L/S/R/W 3, M/J ESOL CMB Skills, ESOL Lis-SPK 1, ESOL Lis-SPK II, ESOL Read-Writ I, ESOL Read-Writ II, and ESOL Comb SKLS III), English through ESOL, and basic subject areas of math, science, social studies, and computer literacy. All students who are reported as LEP and under the ESOL FEFP Program Number must be receiving instruction by appropriately qualified staff who uses ESOL and/or heritage language strategies.

FTE Calculation and Reporting for Students in Department of Juvenile Justice Educational Programs

Section 1003.01(11)(a), Florida Statutes, describes the school year for Department of Juvenile Justice (DJJ) Programs as follows: "Programs or schools operating for the purpose of providing educational services to youth in Department of Juvenile Justice programs, for a school year comprised of 250 days of instruction distributed over 12 months. At the request of the provider, a district school board may decrease the minimum number of days of instruction by up to 10 days for teacher planning for residential programs and up to 20 days for teacher planning for nonresidential programs, subject to the approval of the Department of Juvenile Justice and the Department of Education." DJJ programs are not considered "extended school year" programs.

The following requirements are in effect:

1. FTE count periods shall be the same for DJJ programs as for other public school programs;
2. The calculation of FTE for students in DJJ programs shall be limited to 25 hours per week;
3. The school year shall be comprised of 250 days of instruction with no more than 10 of these days used for teacher planning in residential and 20 days in nonresidential programs; and
4. Students participating in GED preparation programs shall be funded at the basic program cost factor.

DJJ FTE will be calculated just as all other FTE are calculated based on scheduled instructional days. The FTE is reported under the appropriate FEFP program (i.e., basic, vocational, ESE, or ESOL).

For DJJ facilities, FTE reporting by survey **may** be as follows:

July (Survey 1)	Report up to 35 instructional days
Oct. (Survey 2)	Report next 90 instructional days
Feb. (Survey 3)	Report next 90 instructional days
June (Survey 4)	Report up to 35 instructional days

A school district may not report more than 250 days or instruction for DJJ students.

Definition of Department of Children and Families/Department of Juvenile Justice Clients

As required by Section 1011.62(1)(d)3.a., Florida Statutes, a district's enrollment ceiling for group 2 shall be the sum of the weighted enrollment ceilings for each program in the group, plus the increase in weighted full-time equivalent student membership from the prior year for clients of the Department of Children and Families (DCF) and the Department of Juvenile Justice (DJJ). For the purpose of calculating the increase in weighted full-time equivalent student membership from the prior year for DCF and DJJ clients, the students reported under the code of "A" or "C," as listed below, on the data element *Student Characteristic, Agency Programs*, are included.

CODE - DEFINITION

A - The student is a client of Department of Children and Families (DCF), is placed in a residential facility operated by the agency, and receives educational services from the local school district or through a contract with the local school district.

This definition was designed to include students with disabilities who were placed in residential facilities by DCF (e.g., a Developmental Services, Intermediate Care Facility [ICF-MR]). It does not include students who are in foster care placements.

C - The student is enrolled in a Department of Juvenile Justice facility/program and receives educational services from the local school district.

This definition was designed to include the Department of Juvenile Justice or a private, public or other governmental organization under contract with the Department of Juvenile Justice which provides treatment, care and custody or educational programs for youth in juvenile justice intervention, detention or commitment programs. This definition encompasses programs such as PACE and AMI. Please note that in many DJJ facilities there may be more than one educational program that generates weighted FTE (e.g., ESE, basic, ESOL, or vocational).

Reporting Nonpublic School or Home Education Students for FTE Funding

Nonpublic school or home education students who receive instruction in the public school district must be reported in the following manner on the DOE Information Database to assure accuracy for the various reports.

For all nonpublic school students in grades PK-12, **the district must create all appropriate formats and the school number code for School Number Current Enrollment must be N999 for the nonpublic school student and N998 for the home education student.** The district of enrollment and the district of instruction will be reported as the actual number of the district providing the service.

Reporting "Additional School Year" Students

Students who complete the minimum number of credits and other requirements but are unable to meet the state graduation test score requirement, required grade point average, or other district school board requirements for graduation may be awarded a certificate of completion or may elect to remain in the secondary school as either a full-time student or a part-time student for up to one additional year and receive special instruction designed to remedy his or her identified deficiencies. This special instruction may be reported for FTE funding. In addition, exceptional education students may be eligible for additional years of school due to Free and Appropriate Educational Programs (FAEP).

Reporting Hospital/Homebound Students

Hospital/homebound students, whose IEP specifies the number of minutes per week that hospital/homebound services will be provided at home or a hospital, should be reported during survey week like other students. If the student is scheduled to receive services, and the teacher visits the child during survey week or one of the six school days preceding survey week, the student's scheduled time should be reported. It is incumbent on the district to keep proper documentation to verify that the schedule for the delivery of services to the hospital/homebound student is regularly followed.

In some cases, a student may be served in both a hospital or home setting for some of the time and at a school-based setting at other times. Students who are alternately assigned to the hospital/homebound program and to the school-based program are reported for FTE based on their enrollment during the survey week, which may be in either program or in both. In these cases, the student will be reported as hospital/homebound during survey week for the amount of time served on a one-to-one basis at home or hospital and in the appropriate program for any time the student is in attendance at the school site during that week.

Local Record-Keeping Procedures

Requirements

Each district must establish the following local record-keeping procedures pursuant to Rules 6A-1.04513, and 6A-1.0453, FAC.

- A. As of the "date certain" for the FTE membership survey (Survey Periods 1-4), the December 1 Child Count (Survey Period 9), and for all information for the End-of-Year reporting (Survey Period 5), the district shall create a master file containing all automated student records which will be used in submitting the automated student record formats required for the survey period by the Department of Education. The master file can be stored in either local or state format.
- B. The district must use the following for maintaining the master file and for applying subsequent changes to be made to student records after the State Records Processing Cycle.
 - 1. All changes made to student records during the State Records Processing Cycle shall be applied to the district's ongoing system as appropriate. No separate record of transactions during the State Records Processing Cycle is required unless district policy requires the maintenance of the transaction file;
 - 2. The master file can be maintained in a static state once created on the "date certain" or changes recorded in the transaction file can be overlaid on the master file;
 - 3. Amendments submitted to the Department after the close of the State Records Processing Cycle must be maintained in a separate transaction file **by date of submission**; and
 - 4. The district master file should be capable of replicating the district records as they existed in the state database at the close of the State Records Processing Cycle. Applications of the amendments as submitted against the district master file plus unchanged records on the district master file must replicate the records used in funding and other reporting after the close of the survey period.

- C. After the close of Survey Periods 1-4 State Records Processing Cycle and after all subsequent amendments to each survey period, the district superintendent must submit a letter to the Director of School Support Services stating the total unweighted FTE reported by the district and certifying that the district files and state record formats submitted by the district are accurate and complete.
- D. The school district will not be required to produce and maintain ESE 134, FTE-1 Survey forms, or other hard copy output of the above records at the school or district level, provided that district's automated files are readily accessible for state auditing or monitoring activities for **three years, or until applicable audits have been completed, whichever is longer.**
- E. Appropriate internal procedures must be instituted by the district to ensure that accurate and complete automated records have been submitted by the district for the survey period and that the district automated system and other supporting documentation are sufficient to verify that statutory requirements for state reporting and local record-keeping have been met.
- F. Verification of records must be easily accomplished. For example, bell schedules, Individual Education Plans, Matrix of Services forms, student schedules, and similar documentation must be maintained for audit purposes. Attendance documents must also be maintained in accordance with the requirements of the Automated Student Attendance Record-Keeping System.
- G. Schedules, as well as entry and withdrawal records, for the Hospital/Homebound student must be maintained for the student for whom funding under that exceptional student education program is requested.
- H. For OJT and Co-op Programs, student class schedules or time cards, appropriately dated, must be kept.
- I. Using the Automated Student Attendance Record-Keeping System, the district must verify that the student has been in attendance at least one of the days of the survey week or one of the six scheduled days preceding the survey week in which the school was in session.
- J. Continuous progress educational programs must be addressed in the district's Pupil Progression Plan. Appropriate documentation demonstrating a student's progress level should be available for audit purposes.

APPENDIX B SAMPLE K-12 SHORT COURSE REPORTING

Student A

	1st 90 Days			2nd 90 Days		
Day 1	Day 30	Day 60	Day 90	Day 120	Day 150	Day 180
	Trimester I		Trimester II		Trimester III	
1	East & West Heritage 2100370		Drivers Ed 1900310	Dual Sports 1502410	Photography 0108310	Computer App 0200310
2						
3	English II 1001340		Algebra II 1200330		Biology I 2000310	
4						
5	Latin II 0706310			Latin II 0706310		
6	Journalism II 1006310			Journalism II 1006310		

Reported in Survey 2:

<u>Courses</u>	<u>Days in Term</u>
E & W Heritage	60 days
English II	60 days
Latin II	90 days
Journalism II	90 days
Drivers Ed	30 days
Algebra II	30 days

Reported in Survey 3:

<u>Courses</u>	<u>Days in Term</u>
Dual Sports	30 days
Algebra II	30 days
Latin II	90 days
Journalism II	90 days
Photography	30 days
Computer Applications	30 days
Biology I	60 days

East & West Heritage, English II, and Drivers Ed are scheduled to be completed in the first 90 days and are reported with the scheduled days in term. Latin II and Journalism are year-long courses and are reported for the first 90 days. Algebra II spans the two survey periods and is reported for the days scheduled in the first 90-day period.

Dual Sports, Photography, Computer Applications, and Biology I are scheduled to be completed in the second 90-day period and are reported with scheduled days in term. Latin II and Journalism II are reported for the full 90 days. Algebra II is reported for the days scheduled in the second 90-day period.

APPENDIX C

Program Numbers, 2004-05 Fiscal Year

For 2004-05, the programs and numbers listed below will be used for reporting FTE and for program cost reporting.

Program/Category	Program Numbers To Be Used for Reporting on the Student Course Format and Cost Reporting
BASIC PROGRAMS	
K-3 Basic **	101
4-8 Basic	102
9-12 Basic	103
K-3 Basic, with ESE Services *	111
4-8 Basic, with ESE Services	112
9-12 Basic, with ESE Services	113
EXCEPTIONAL STUDENT EDUCATION	
Support Level 4	254
Support Level 5	255
ESOL	
ESOL	130
VOCATIONAL 9-12	
Vocational 9-12	300

* Include Prekindergarten Exceptional Students if not Level 4 or Level 5.

** Include Prekindergarten Students in Teen Parent Program (not ESE).

APPENDIX D

DOE Student Database Reporting Requirements (October and February, Surveys 2 and 3) for Students Participating in the Opportunity Scholarship Program or the John M. McKay Scholarships for Students with Disabilities Program 2004-05

School District Responsibility

- Maintain and report student demographic data.
- Report all students attending private schools in the Opportunity Scholarship Program or the John M. McKay Scholarship Program from lists provided by the Department of Education.

Record Formats for Students Participating in The Opportunity Scholarship Program

Two record formats, Student Demographic Information and Student Course Schedule, are required for reporting all Opportunity Scholarship Program students to the DOE Information Student Database. Additional record formats are required when disabled students receive services from the public school district.

The following shows information on data elements to be reported. School Number 3818 is to be used by all school districts to report School Number, Current Enrollment for students participating in the Opportunity Scholarship Program. The School Number, Current Instruction is the private school number, except for instruction provided by the school district. The additional data elements that are not listed on the record are to be reported as appropriate.

Key Elements to Remember

- ⇒ Enter 0.5 FTE for each student in Survey 2 and again in Survey 3 unless you are instructed otherwise on the notification list from the Department of Education.

- ⇒ If a student appearing on the DOE supplied list is in a public school in your district during survey week, report that student as you would any public school student in your district with the appropriate corresponding records and school numbers.
- ⇒ The Department of Education supplied list will verify which students have had payments made on their behalf at any time during the period. In order for your district to receive the correct funding, you must be sure that all students on the list have been reported either in school 3818 or in the appropriate school in your district.
- ⇒ No student may be reported for more than 0.5 FTE in any survey.

- **Student Demographic Information**

District Number, Current Enrollment	Use reporting district number.
District Number, Current Instruction/Service	Use reporting district number.
School Number, Current Enrollment	Use school number 3818.

- **Student Course Schedule**

School Number, Current Enrollment	Use school number 3818.
School Number, Current Instruction	Use private school number, unless record is being reported for service provided by the public school district. Then, the number is to be the regular school number for the district.
Course Number	Use Opportunity Scholarship Course Number, 1111111, unless instruction in the public school district is being reported. Then, the Course Number is to be the appropriate Course Code Directory number.
FEFP Program Number	Use 101-103 for basic, 111-113 for basic with ESE services, 254-255 for ESE, 130 for ESOL, and 300 for vocational.

Only one student course record needs to be submitted for a student in one of the following situations:

- The student being reported is receiving basic, as well as ESOL instruction, at the private school. In this case, only one course record with Course Number 1111111 is to be reported with FEFP Program 130. When the student enters the program, the school district will provide information regarding the number of years that a student has already participated in the ESOL program. This information will be used to calculate the six-year maximum for ESOL funding.
- The student being reported is receiving basic, ESOL and vocational instruction at the private school. In this case, one record should be reported with Course Number 1111111 and FEFP Program Number 130.

More than one student course record needs to be submitted for a student in the following situations:

- The student being reported is receiving instruction from both the private school and the public school district. In this case, a combination of records that reflect instruction from the private school (Course Number 1111111), and the actual Course Code Directory numbers for the instruction from the public school, are to be reported.
- The student being reported is receiving basic as well as vocational instruction at the private school. In this case, one record with Course Number 1111111 is to be reported with FEFP Program Number 103 and another record with course number 1111111 is to be reported with FEFP Program number 300.

- **Teacher Course**

Teacher Course records should be submitted only if students are being instructed by both the private school and the public school district. Only those courses reported for instruction from the public school district are required to have a Teacher Course record to match the Student Course Schedule record.

- **Exceptional Student and Exceptional Student Program**

Exceptional Student and Exceptional Student Program records are to be submitted for disabled students who are provided services by the public school district. These formats are not required for Surveys 2 and 3 when the services are provided by the private school.

**Record Formats for Students Participating in
The John M. McKay Scholarships for Students with Disabilities
Program**

Two record formats, Student Demographic Information and Student Course Schedule, are required for reporting to the DOE Information Student Database. Only one record of each type is required.

The following shows information on certain data elements to be reported. School number 3518 is to be used by all districts to report School Number, Current Enrollment for students participating in the John M. McKay Scholarships for Students with Disabilities Program. The School Number, Current Instruction is always the private school number. Additional data elements that are not listed on the record are to be reported as appropriate.

Key Elements to Remember

- ⇒ Enter 0.5 FTE for each student in Survey 2 and again in Survey 3 unless you are instructed otherwise on the notification list from the Department of Education.
- ⇒ If a student appearing on the DOE supplied list is in a public school in your district during survey week, report that student as you would any public school student in your district with the appropriate corresponding records and school numbers.
- ⇒ The Department of Education supplied list will verify which students have had payments made on their behalf at any time during the period. In order for your district to receive the correct funding, you must be sure that all students on the list have been reported either in school 3518 or in the appropriate school in your district.
- ⇒ No student may be reported for more than 0.5 FTE in any survey.

- **Student Demographic Information**

District Number, Current Enrollment	Use reporting district number.
District Number, Current Instruction/Service	Use reporting district number.
School Number, Current Enrollment	Use school number 3518.

- **Student Course Schedule**

School Number, Current Enrollment	Use school number 3518.
School Number, Current Instruction	Always use private school number.
Course Number	Use McKay Scholarships Program Course Number, 222222.
FEFP Program Number	Use 111-113 for basic program with ESE services, and 254-255 for ESE.

APPENDIX E

DOE Student Database Reporting Requirements for Virtual School Students 2004-05

**NOTE: This appendix does not apply to students participating in the Pilot K-8
Virtual Schools**

For detailed reporting information, please refer to the Department of Education Database Manual for the 2004-05 Student Information System.

- *Virtual School FTE may be earned through the Florida Virtual School or a franchise of the Florida Virtual School.*
- *School districts may not earn or report FTE for direct instruction provided by the Florida Virtual School.*
- *All FTE earned by the Florida Virtual School and franchises of the Florida Virtual School must be reported on a successfully completed credit basis. The completion of 6 credits is equal to one unweighted FTE. A fraction of a FTE may be reported.*

Florida Virtual School FTE Reporting:

Students must be enrolled in and receive direct instruction from the Florida Virtual School. To receive funding, students must successfully complete Florida Virtual School courses. These course completions may be reported during the regular 180-day school year and for summer school. Fundable FTE may be earned and reported in student surveys 1, 2, 3, and 4. Each half credit successfully completed generates 0.0834 FTE.

Credit completed by a student in excess of the minimum required for that student for high school graduation is not eligible for funding.

FTE should be reported for funding in the survey during which the student successfully completed the course. If a student successfully completes the course before survey week, FTE may be included with the data submitted before the final processing date for that survey. If the course is successfully completed after survey week but before the end of the survey period, the survey should be amended to include the FTE for the student's successful completion. The Florida Virtual School may report FTE for funding in all FTE survey periods.

Franchise of the Florida Virtual School Reporting:

To earn FTE through an approved franchise of the Florida Virtual School, which has been certified by the Commissioner of Education, students must be enrolled in the school and the virtual instruction must be provided by the school district. Fundable FTE may be earned and reported for students who successfully complete these virtual courses during the regular 180-day school year. A maximum of 0.5 FTE may be funded for each student in Survey 2 and in Survey 3. The 0.5 FTE may be made up of traditional and virtual courses, but virtual courses may not be reported for funding until they have been successfully completed. Each half-credit successfully completed generates 0.0834 FTE.

School districts may only report or earn funding for FTE for successful completion of virtual courses during the 180-day school year, surveys 2 and 3. Courses completed prior to 12/31 of the school year should be reported in Survey 2. Courses completed after 12/31 but before 6/30 of the school year should be reported in Survey 3.

Credit completed by a student in a virtual class in excess of the minimum required for that student for high school graduation is not eligible for funding.

Districts may not earn or report FTE for direct instruction provided by the Florida Virtual School.
