Score History Data Reports (pass/fail scores) on the Florida Teacher Certification Examinations (FTCE) are available to Florida colleges and universities. A breakdown of overall student performance by each competency for each examination (FTCE Competency Reports) is also available. These reports are provided by college or university request to the FTCE testing contractor, the Institute for Instructional Research and Practice at the University of South Florida. To obtain these data reports for its students, a college or university should submit its request with the required information to the University of South Florida, as outlined in the attached instructions.
