MEMORANDUM

TO: District School Superintendents

FROM: Dr. Cornelia S. Orr, Assistant Deputy Commissioner
Accountability, Research, and Measurement for Assessment

DATE: June 28, 2007

SUBJECT: PSAT and PLAN Student Testing

In support of the Florida Department of Education's commitment to set, align, and apply academic curricular and testing standards, we are pleased to announce that the Florida Legislature has again appropriated funds for the administration of the PSAT or PLAN pre-college entrance examinations to Grade 10 students in public high schools. This program contributes to increased access to college admission for our high school students. Please take steps to inform students about the testing program and encourage their participation.

Test results will provide each high school guidance counselor with student assessment data that will help identify students who are ready for or who need additional work in order to enroll and be successful in Advanced Placement and other college preparatory courses. Materials are also available to allow guidance counselors to use preliminary examinations to identify students who can be successful in advanced courses if given the encouragement and information on the importance of these courses to their future success.

In accordance with Section 1007.35(5), Florida Statutes, *each public high school, including, but not limited to, schools and alternative sites and centers of the Department of Juvenile Justice, shall provide for the administration of the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), or Preliminary ACT (PLAN) to all enrolled 10thgrade students. However, a written notice shall be provided to each parent that shall include the opportunity to exempt his or her child from taking the PSAT/NMSQT or PLAN.* The tests are scheduled to be administered from September to December (PLAN) or in October (PSAT).
