Very soon your principals will be receiving a valuable resource for your high school seniors from the Chancellor of the Division of Florida Colleges, Dr. Randy Hanna. We want every senior to be aware of the opportunities that await them after graduation and, for most graduates, the Florida College System will be the option of choice. Chancellor Hanna would like them to have information at their fingertips that makes the transition to college smooth and easy. He is sending boxes of postcards, which you can view at www.floridacollegesystem.com/postcard, to your principals for each high school senior. The postcards direct the students to the Florida College System website where a new webpage has been developed just for them to help with navigating the college admission and financial aid process. We hope you will encourage principals to not only give the postcards out to the students but also encourage every high school senior to get an early start on applying to college.
